

# Water Crystals

under a microscope

Ordinary tap water

Water from i9bottle

These photographs of water crystals show significant positive changes in the vibrational pattern of water informed by the i9bottle.

## One of the greatest mysteries of water lies in its memory

Scientists discovered that water has a memory that can influence its molecular structure.

It can be positively stimulated by sources of vibration and energy—like Hydronic Technology.

*"I have more energy, a better mood, and a strong feeling of inner well-being throughout the day. The water from the bottle tastes really great."*  
Radek

*"I feel that I'm doing a service to my health and the environment when I use my i9 bottle."*  
Amy

## We support harmonious living with enhanced products to reduce stress

A body that is thriving because it receives the exact and necessary nutrients and fluids needed, is a body that will thrive and bring peace to your mind and soul.

**Water** is the main source of energy and an integral part of the food we eat.

By placing food or beverages on the **Energy Place Mat** for a few minutes, we achieve balance.

The left spin (negative) energy in the products placed onto the Energy Place Mat is converted into right spin (positive) energy. With this, you can cancel the negative influences that water, food, or drinks have been exposed to during transport and handling (barcodes and optical scanners), and activate the finest and most high potential in all food items.

Our Energy Place Mat is enhanced by a precise selection of information (vibrations) in the form of information codes. These codes add energy potential to the water which invigorates it, thus producing harmonized living water.

**"Everything that surrounds us and that we are made of is a set of vibrations and pieces of information transmitted and distributed by them."**

# “Water is the driving force of all nature.”

Leonardo da Vinci

We know that the human body is made up primarily of water. Our health and aging are directly related to the quality and quantity of water in our body.

Unfortunately, the quality of drinking water is deteriorating all over the world.

## The solution is harmonised water.

Our body needs “alive” water to facilitate the transport of nutrients inside our cells.

Join the i9 water challenge & feel the difference!

[www.i9living.eu/waterchallenge](http://www.i9living.eu/waterchallenge)

### Increases energy & reduces stress

i9 positively affects your well-being. Tests revealed that drinking water from i9bottle improves the human energetic bio-field and lowers stress levels, thus clearing your mind, purifying your body, and bringing you closer to spirituality.

### 40 Years of Research & Development

TP Technology (Technologies Poznik) is backed by 40 years of research and innovation and was developed by a team of world-class inventors who received over 90 international awards and recognitions for their exceptional achievements.

### Chromotherapy

Strategically positioned coloured silicone bands offer not only protection against breakage but also a potential for colour therapy. When exposed to sunlight, water in a coloured container absorbs the vibration of that particular colour.

### Nature Friendly

Our i9bottles are made from quality glass which is recyclable and a natural alternative to plastic. And because we believe sustainability is the way and to give back to nature, we donate a tree with every i9bottle you purchase.

Be healthy and drink water from a reusable informed glass water bottle!

More than just a glass bottle!

## i feel water

The i9 informed water bottle is a beautifully designed, reusable glass bottle.

The heart of the i9 informed water bottle lies in an “informed tag” that is produced by the world-renowned Poznik Laboratories.

The i9 tag enables water structure to change back to its purest form, giving it the taste and effect of a fresh mountain spring.

It does so by breaking the molecule clusters into smaller units thus adding energy potential to the water, which means that it invigorates the water, producing structured harmonized live water.

The Berlin Institute of Electrophotonics awarded the i9 informed water bottle the Certificate of Excellence.

### Extensive tests have shown:

- A significant increase in the human bioenergetic field
- A reduction in levels of stress
- The increase of biophotons (energy) in water
